

# CHRISTIANITY AND THE LAW.

Matthew 9: 12-13.

"He that hath a neighbor like himself, let him love him, as himself."—Leviticus 19: 18.

THE GREAT Teacher declared that he came not to destroy the Law and the Prophets, but to fulfill them. While the Law and the Prophets were given to Israel, it was really the Divine Law given to Israel as a test for the Divine Covenant with that nation, and Moses merely stood as mediator of that Law Covenant agreement which was to be made between the Law and the God who obligated it. It was not to be given to Israel, but to the world.

Just before Calhoun died he was asked for a statement, and he said:

"I know that I will die, and that soon. I have forgiven all my enemies, and I want them to live in peace, pull together and do the best they can. I have been trying to live as I should for the last five years, and I have not interfered with the business of any other man, and I do not think I should have been under any obligation to do so."

## LIFE FORFEITED

Ed Callahan, Mountain Leader, Dies of Wounds.

Jackson, Ky., May 12.—Ed Callahan, well known Breathitt county merchant, former Sheriff and class leader, who was shot from ambush Saturday, May 3, died Saturday night at 11 o'clock at Whitehouse College Hospital at Beckhorn. He was under the care of Dr. Offutt and Eastell, of Lexington, and Dr. Breashear, of Beckhorn, and Glass, of Booneville, who did all that they could to save him. Pneumonia, which set up in the right lung shortly after the shooting, made the case fatal. It is believed that he would have lived but for the fever. He will be buried in the family lot at Crockettville Monday afternoon.

Just before Callahan died he was asked for a statement, and he said:

"I know that I will die, and that soon. I have forgiven all my enemies, and I want them to live in peace, pull together and do the best they can. ## KENTUCKY CROPS

State Department of Agriculture Survey of Conditions As of May 15.

Frankfort, Ky., May 11.—In a bulletin issued today the State Department of Agriculture says: "The crop report rendered as to conditions existing May 15 shows a decreased acreage of wheat originally sown in Kentucky last fall, 91.4 per cent. of average crop. This spring there has been abandoned 7.6 per cent. of this original acreage, leaving 83.8 per cent. of an average crop in acreage, the condition of which is 79 per cent. Condition of rye 52.2 per cent. Condition of barley 72.5 per cent. Condition of oats 86.6 per cent.

"There has been but little corn planted and only 51.1 per cent. of the plowing, a great deal of which was done last fall, is reported. The unusual amount of rain fall has interfered materially with the sowing of oats and with the sowing of rye. It shows an unusually large crop of wheat, but whether weather conditions will permit this is yet to be determined.

"The indicated acreage of dark tobacco is 98.2 per cent. and the Barley acreage is 99 per cent. Condition of tobacco in dark is 98.2 per cent. Condition of light is 98.2 per cent. and of the beds for Barley to tobacco 97 per cent. Practically all fruit is killed in some portions of Kentucky, while in other portions about an average condition is reported. Peaches, 55.1 per cent. Condition of apples 85.1 per cent. Cherries, 81.1 per cent. Grapes, 84.1 per cent. Condition of the strawberry crop is 90.3 per cent. Condition of livestock is reported as hardly being up to the average. Grass conditions are unusually good. The loss from foot and mouth for the last twelve months is 7.3 per cent.

"The flood district of Kentucky has brought down the general average of crops more or less, as many fields of wheat and oats were reported as being entirely ruined as the result of the flood conditions. In many sections there has been interference with the planting of gardens, and some reports show no potatoes planted yet. While the entire report from the State is 82.7 per cent. for potatoes acreage.

"The June crop report will show the total acreage of corn, oats and potatoes, and no effort has been made to obtain the total acreage of these crops owing to the late season."

**Recovered Sundry Expenses.**

A man sued another in the Liverpool County court for the expense of a courtship. They formed the acquaintance of two young ladies, and when the two couples were to be married the plaintiff paid all the expenses for the time being. The defendant married the young lady, and the plaintiff sued him for \$40, his share of the courtship expenses, and recovered the same.

**Some Uses for Hate.**

Hate is only a passing emotion—something upon which little people can get their teeth. We get a certain amount of diversion out of it and some salutary lessons. It is probably a friend in disguise and keeps us from wasting time and from spending forces where they are not needed. And when hate is dead what a comfortable feeling comes in its place.

**Goldsmith's Sketch of Himself.**

Goldsmith has accurately sketched himself in the following fashion: "I am a man of the present, care less of the future, his sentiments those of a man of sense, his activities those of a fool; of virtuous life, and stand unmoved at the bursting of an earthquake, yet of sensibility to be affected by the breaking of a tea cup."

**Professor's Remark.**

A certain high school professor, who at times is rather blunt in speech, remarked to his class of boys, at the beginning of a lesson, "I don't know why I let you come to school every day, but I suppose it is because you are all so stupid."

**Why Not Remark?**

"Yes, I'm remarking. Remark, 'my Uncle Henry has traveled a good deal in those hot countries down south. He says that after the noon heat every body goes and takes a 'cool bath,' but why they call it that I'm sure I can't imagine."

**Psychology.**

Arthur—Did you ever notice how one person always reminds you of another? Jim—Well, I notice that when ever I see one of my creditors I always think of that cute little fellow I'm going to marry in June—Meg—Gentler Blatterer.

**Sal's Tomb to Order.**

An English contemporary tells the story of an Indian frontier tribe, having been jarred at by another tribe because it possessed no tombs of sages, went out and killed a well-known holy man, and buried him.

**Dividing the Night.**

A Chinese proverb runs: "Think of your own faults the first part of the night (when you are awake), and the faults of others the latter part of the night (when you are asleep)."—Ave Maria.

**Explained.**

Stranger—What a dear child! How tenderly she kisses her sister! Her sister—Kiss me! Her sister is pecked in a candy factory—Meg—Gentler Blatterer.

## SHEEP SCABIES

Strong Appeal to Owners And Shippers For Assistance.

Beth Federal and State quarantines against sheep scabies was released on May 1, in all Kentucky counties lying west and south of the Green and Big Bar rivers, those counties having completed the work and eradicated the disease from that section.

The quarantine on the remainder of the State will be removed just as soon as the few remaining infected flocks are properly treated. The government and State inspectors are co-operating in this work and are making a strong effort to complete the work in the near future. Sheep owners, farmers and traders can greatly assist in this work and shorten the time for the removal of the quarantine if they will report to the inspectors all existing flocks of infected sheep. Government experts are here in the field and will personally supervise and give assistance to the owners of all diseased sheep for the proper and careful treatment of their flocks. If you have scabies in your sheep or know of an infected flock you are requested to report to either the County inspectors or the government inspectors and they will give you reliable information and help you get rid of it as soon as possible.

This time last year there were more than one thousand flocks of infected sheep in Kentucky. At present only about eighty flocks are known to still be diseased. But is feared that the owners of infected sheep are not so quick to report as they should be, and that proper treatment may be given.

Quite a number of flocks have recently been infected as a result of purchasing sheep from other flocks already diseased. The owners of infected sheep are forbidden by law to dispose of or remove from their premises, any sheep until cured and written permission is given by the inspector. Persons contemplating buying sheep should first ascertain the condition of the animals desired and secure from the inspector a permit for the removal of the same. By using such precaution a further spread of disease will be at once stopped. All farmers, sheep owners, buyers, shippers and others interested are urged to observe the State's regulations and to give the assistance asked.

**The Nickle Show.**

Sometimes, when I'm weary of things that I know I put my mind and body down to the work. I throw down a coin to the girl at the nickel show and look for a seat. I hand up my ticket. On the screen there is flashing the deeds of a hero, or the burning of saints by the wicked old Nero. The apprentice is there gazing on with apt face, at a story of love, and an unknown girl's plight. The children are crying all the front rows, and the factory girls are there with their tears. The tired mother sits with a child on her lap, she enjoys a short trip through the land of the Jap. Do you think it is the girl with the borrowed complexion her hair done in coils to the right of perfection? On the sheet are proposals, girls lost and girls won, in dozens of ways we can see how it's done. The millionaire marries the little shopgirl, while another catches his head in the law net. The lovers look on, holding hands in a mass, and try not to laugh at their innocent bluff just then a grand dame sweeps in with her daughter; you'd think by their airs they had paid a quarter. On their heads they are auring a family of rats, and I can't see a thing of their blushing big hats. And there they will sit with never a care while my people wonder where I learn to swear. So I button my coat, and put on

FOR PRESIDENT  
CHAMP CLARK

Governor McCrory has announced that he is for Speaker Clark for President. We are glad that the Governor has seen fit to support Mr. Clark and we believe that he has made a wise selection of a candidate to give his support to, both as to Mr. Clark's availability as a candidate and as to the fact that he is a Kentuckian and is entitled to Kentucky's support. Mr. Clark is gaining strength every day, and it begins to look as if he will have a walk over in the Baltimore convention. We believe in sticking to home people and now that we have a chance to support a home man for the office of President, we think that the people of Washington county should show their loyalty to their old resident by turning out en masse, to support him on May 25th. Mr. Clark is looking toward us, and is watching Washington county, because his victory would be incomplete should his home people fail to turn out in proper numbers to show their appreciation of him. Come on May 25th and vote for him.

Early reports from the Democratic presidential primary held Tuesday in Nevada indicate a victory for Champ Clark. Wilson. The New Hampshire delegation is uncommitted, but is pledged to Clark. The Utah delegation is to vote for a progressive on a progressive platform. A movement to instruct for Wilson got two votes. Reports from California indicate a victory for Clark. New Mexico gave the Speaker its instruction.

### CEMENT FEED FLOORS BEST

More Expensive Than Others, But Pay for Difference in Comparative Short Period.

The writer constructed a floor 20x20 feet last September and has been using it almost constantly and with the greatest satisfaction. Though it cost about two weeks of hard labor and \$15 in cash I almost feel that I have a return for my outlay both in labor and cash already, says a writer in an exchange. An quite sure I have saved \$15 worth of feed and believe the extra labor in carrying out corn, a basket at a time, through the mud to mud to a dry (muddy) spot through that had water would have been most equalled the labor of building the floor. But more than this is the satisfaction of feeding in this clean and handy way, which can only be appreciated by trying it.

Our floor was made right beside the outhouse, in what had been the hog wallows. Stones were gathered from the fields and laid in the bottom. These were covered and leveled by smaller stones and coarse gravel, then a thick layer of concrete (eight parts of cement to one of cement), then the surface coat of four or five part concrete sand to one of cement, the concrete being laid on three sides and the same wide boards were nailed on the inside to the posts, running down to the floor. This included no feed in the floor. This floor was fed in the floor. This floor was fed in the floor.

Value of the Eucalyptus. In Europe and Africa the eucalyptus tree is in high favor because of its efficiency in draining swamps.

Fruits Comparatively New. Not until the days of Henry VII were raspberries, strawberries and cherries known in England.

Salt in Chimney. In building a chimney it is recommended to put a quantity of salt into the mortar with which the interior of the chimney is built. The salt in the mortar of mortar which is exposed will absorb the moisture on damp days, and the soot, becoming damp, will fall down from the walls of the chimney and may be easily removed.

### NEVER WILL BEAR REPETITION

Business Man Has Found That He Cannot Repeat Verbal Castigation Over Phone.

When the telephone bell rang the senior partner said to the junior partner: "If that is that man Bailey, just tell him what you think of him, even if you lay yourself liable to a fine for violent language."

The junior partner relieved himself of a few abusive epithets, but presently, after a brief pause, he expressed the same sentiments in much milder terms, said the Junior partner:

"There you go, creating again. Why can't you stick to what you said in the first place?"

The Junior partner dropped the receiver. "Supposing you come and say it yourself," he said.

The senior partner did so, but after a little he too, repudiated his harangue with all the backlogs left out.

"It's no use," he said. "You can't curse a man twice over the 'phone who answers your first outbreak with 'I beg your pardon, I didn't quite catch that. Say it again, please.' That is Bailey's way. You try to say it again, but the second time it sounds pretty rank even in your own ears and your tongue of sage moderates into a tranquil breeze."

### Noble Denmark

Reg. No. 2640

Foaled 1906, handsome Chestnut 16 hands by Highland Denmark 326. First dam Kentucky Belle 962 by Thorton Star 1024, 2d dam Little by Art Rose 766, 3d dam by Mook Chief, 4th dam Washington Denmark 64.

Noble Denmark is a young horse is rated with the best of Sires. He is highly finished and a perfect saddle horse type. He is said by well known judges such as Wm. Kirby, Ed. Bowling Green, W. G. Shropshire, of Winchester, Roger Lillard and Elmer Bailey to be a great type for a three gaited saddle stallion and is sure to breed that class of horses. He was successfully shown by Mack Hughes last year—was never out of the money and many times first—was never defeated by a Stallion in model ring. His two seasons of colts show remarkable uniformity. His yearling and sucking won at Bardonia and Springfield, and in the sale ring have commanded good prices.

Noble Denmark's sire and his grand sire on both sides were championship saddle horses in Kentucky and Missouri. His dam and two of her colts were State Fair winners. Consider his breeding, his individuality, his show ring qualities where will you go to find one his superior. Noble Denmark will make the season at

\$20 To Insure a Living Colt

Will stand my same Jacks at \$10 To insure a living colt. Season is due when mares traded or parted with.

staking training they have re-  
ceived from their teachers.

Closing exercises of the class-  
es will be concluded at the school  
house Friday evening May 19,  
with a well arranged program by  
High School students. Public  
is cordially invited.

The Commencement exercises  
will be held at the Opera House  
Friday evening May 24. Pro-  
gram will be announced in full in  
next issue of paper.

Judge I. H. Thurman and Mr.  
C. F. Bosley have purchased an  
interest in the Planters Tobacco  
Warehouse with Mr. Tandy  
Quisenberry. Mr. Quisenberry  
has been conducting the house  
since James S. Keigwin's de-  
parture and is an expert to-  
bacco man who believes in a  
square deal to everybody.

The new members are men who  
will add greatly to the business,  
both being prominent men of the  
county. Mr. Bosley will be ac-  
tively engaged in helping con-  
duct the business.

**Chautauqua**  
The Proctor Knott Chautauqua  
will hold its annual as-  
sembly at the Chautauqua  
grounds at Lebanon this year  
from July 3d to July 12th. The  
best talent that could be had  
has been secured and those who  
attend may expect a good enter-  
tainment.

**New Hotelkeeper.**  
Mr. Ida Clarkson and Mr.  
Chas. McKinney, her brother,  
have leased the Springfield Ho-  
tel on Main Cross Street and will  
conduct it this year. Both are  
well qualified to keep a hotel,  
both having had experience in  
that line before. Mrs. Clarkson  
has been conducting a private  
boarding house in Springfield  
for the past year and has been  
very successful. Now that she  
is better prepared for the busi-  
ness, persons who patronize the  
hotel may expect to find a first  
class hotel.

**Billy Claybrooke To Leave**

We regret to say that we are  
to lose one of our best citizens in  
the immediate future. Hon. W.  
D. Claybrooke has accepted a  
position as General Manager  
and Secretary of the Butler Oil  
Co. of Birmingham, Alabama,  
where he and his family will  
move in the near future. Mr.  
Claybrooke is a man with great  
public spirit and enterprise and  
his leaving will be a great loss  
to the county as he always took  
an active part in all things that  
tended to the betterment of the  
public and was to the public in-  
terest. He is connected with  
many of the public enterprises  
in Springfield and Washington  
county, where he was always an  
active member. The position  
which he has accepted is a very  
responsible one and pays a  
large salary. "Billy" is a very  
pleasant man, being very soci-  
able with all. He is familiarly  
known to everybody in Wash-  
ington county as "Billy" Clay-  
brooke. Although we regret to  
lose Mr. Claybrooke from our  
county, yet we feel confident  
that he will make a success in  
his new business.

**Humphrey-Dugan**

The Louisville papers contain-  
ed the announcement of the  
marriage of Mr. Roy Dugan and  
Miss Kate Humphrey which  
was solemnized at Jeffersonville  
by Squire James S. Keigwin and  
Mr. Dugan is a prominent young  
man and is a very worthy young  
man while his bride who is a  
very pretty and attractive young  
lady is one of our most promi-  
nent schoolteachers.

**Pope-Buckman**

Mr. Wm. Buckman and Miss  
Susie Pope were married in  
Paducah, Ky., Monday by Rev.  
Father Sullivan. The wedding  
was as somewhat of a surprise  
to the people here as very few  
knew that the wedding was to  
occur. Mr. Buckman is a well  
known man of the county and is  
liked by everybody, while his  
bride, who is a daughter of the  
late Mr. Margaret Pope, is one  
of the County's leading school-  
teachers.

They arrived home last night  
and a large party of friends of  
both parties were at the train to  
greet them.

**Notice**

My accounts are now in the

**Notice**

The winter time is going and  
the spring and summer time has  
come and the trees and bushes  
are out in their old clothes that  
look like new, so to have your  
clothes like new, such as suits,  
factors, sticks, gloves, hats and  
shoes have them dry cleaned  
and they will look like new.  
done by Scott system of dry  
cleaning and does not effect  
colors nor does it shrink and  
brings a fine finish on the  
clothing as well as on animal  
fabrics. Also dyeing, hats re-  
flected and garments made to  
measure. This work is done by  
the Springfield Dry Cleaning Co.,  
on Main St., opposite First National  
Bank. Phone 6-R
